

# Is your child safe online?

## Disturbing Statistics...

**1 in 5** Children sexually solicited online (only 25% of those told a parent)

(Online Victimization, David Finkelhor, 2000)

**89%** Sexual solicitations occurred in either chat rooms or Instant Messaging

(Online Victimization, David Finkelhor, 2000)

**64%** of teens say that they do things online that they wouldn't want their parents to know about

(Pew Internet and American Life, "Protecting Teens Online," 2005)

**79%** of teens state that they aren't careful enough when giving out information about themselves online

(Pew Internet and American Life, "Protecting Teens Online," 2005)

**Your child might be at risk if he or she:**

Spends large amounts of time online, especially late at night

Turns the computer off quickly when you come into the room or becomes upset when you ask to see what they are doing online

Receives phone calls from adults you don't know or is making long distance calls

Receives mail or gifts from people you don't know

Uses an online account belonging to someone else

Helping Parents Keep their Kids Safe Online

## Know what your child is doing online....

**SafeComputerKids.com** has powerful software solutions that allow parents to know everything that their children are doing on the computer. From simply having the ability to monitor their email and instant messages to blocking un-approved internet access entirely, parents have the ability to monitor their child's computer activity completely.

## Understand what they are saying....

**SafeComputerKids.com** has developed a very extensive IM Chat Dictionary that allows parents to understand the acronyms that kids use in their emails and instant message chats. This dictionary also includes a section on Drug Slang and contains more than 350 terms that are commonly used for illegal drugs.

## Block them from Un-Approved Internet Activity....

**SafeComputerKids.com** software solutions allow parents to not only block specific websites from being accessed, but will allow parents to restrict access to the internet from the family computer to specific times that they approve internet activity.

## Learn....

Learn about the workings of the Internet (i.e. chat rooms, Internet Relay Chat rooms, websites and newsgroups) especially from your children. Ask them to show you the places they visit and use the **SafeComputerKids.com** tools.
